

VEGA

design Studio Tecnico Alis Italia 2016

VEGA è un porta bottiglie completamente realizzato in metacrilato trasparente. E' componibile con moduli indipendenti da sei, nove e dodici spazi bottiglia.

La sua componibilità in altezza lo rende un utile salvaspazio (altezza massima 220 cm). Una cantinetta dal design senz'atempo.

VEGA is a bottle holder made entirely in transparent acrylic. It is a modular with independent modules of six, nine or twelve bottle spaces.

Its modularity in height makes it a useful space saver (maximum height 220 cm).

A wine cellar from the Timeless design collection.

“Design senza tempo”

“Timeless design”

Il modello VEGA è disponibile in tre differenti versioni di spazio bottiglia. Tutti gli appoggi sono in legno di faggio. Gli elementi di collegamento tra i moduli sono in pp trasparente.

The VEGA model is available in three different versions of bottle spaces. All supports are made of beech wood.

The module connecting elements are in transparent pp.
